

### Remarks

Claims 47-88 are currently pending. Claims 47-88 are rejected under 35 U.S.C. 112, second paragraph, but otherwise would be allowable.

More specifically, the Office Action indicated that the limitation "activating a message viewer on the terminal" of claim 47 is vague. Applicant has amended claim 47 to recite "activating a message viewer on the display of the terminal". Claims 53 and 59 have been similarly amended.

The Office Action further indicated that the limitation "causing a connection with the terminal to be established" of claim 65 is vague. Applicant has amended claim 65 to recite "~~establishing~~ causing a connection with the terminal to be established". Claims 69, 73, 77, and 81 have been similarly amended.

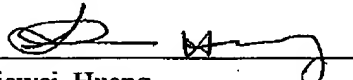

It is believed that the above amendments have overcome the 112 rejections.

Applicant has also amended claims 70-72, 80, and 82-85 to correct minor informalities.

In view of the forgoing amendments and remarks, it is respectfully submitted that the above amendments have place the application in condition for allowance. Allowance of the application is solicited.

Respectfully submitted,  
J.C. PATENTS
